

Location	FeRFA resin type	Qualities
Light-duty commercial settings or industrial floors	FeRFA Type 1: Floor Sealing	<ul style="list-style-type: none"> • Dustproof • Seals concrete flooring • Matte and gloss finishes • Not suitable for food handling or areas that can become wet • Liable for impact damage
Medium-duty storage, warehouses, or industrial surfaces	FeRFA Type 2: Floor Coating	<ul style="list-style-type: none"> • Range of uniform colours • Slip-resistant with aggregate scatter (optional) • Food grades available • Will damage from impact
Assembly areas and laboratory floors	FeRFA Type 3: High Build Floor Coating (filled circle) FeRFA Type 4: Multi-Layer Flooring (circle outline)	FeRFA Type 3 qualities: <ul style="list-style-type: none"> • Limited impact protection • Chemical resistance • Food grades available • Slip resistance improvable with aggregate scatter • Static control grades available FeRFA Type 4 qualities: <ul style="list-style-type: none"> • Increased impact and wear resistance • Non-slip finish with aggregate dressing • Good resistance to chemical spills • Single or multi-coloured finishes available
Medium to heavy-duty workshops, warehouses, or laboratory floors	FeRFA Type 5: Flow-Applied Flooring (filled bullet) FeRFA Type 6: Resin Screed Flooring (circle outline)	FeRFA Type 5 qualities: <ul style="list-style-type: none"> • Very resistant to chemical spills and impact damage • Single or decorative finishes on offer • Food grades available • High slip potential reduced with aggregate scatter • Static control grades offered FeRFA Type 6 qualities: <ul style="list-style-type: none"> • Moderate impact resistance • Food grades on offer • Moderate slip resistance (depending on the seal) • Static control grades available • Not suitable for wet processing or chemical spills
Heavy to very heavy-duty workshops, laboratories, factories, mechanic garages, or warehouses	FeRFA Type 7: Heavy-Duty Flowable Flooring	<ul style="list-style-type: none"> • Excellent impact and very good chemical resistance • Choice of uniform colour or decorative effects • Smooth gloss or matte finish • Food grades available • High slip potential can be reduced with aggregate scatter • Static control grades possible
Very heavy-duty environments, including factories, warehouses, delivery bays, or vehicle storage areas	FeRFA Type 8: Heavy-Duty Screed Flooring	<ul style="list-style-type: none"> • Excellent chemical and impact resistance • Speckled uniform finish • Textured matt finish • Recommended for food processing spaces • Low slip potential • Static control grades on offer
